

# GLOBAL DEMAND

## Dear Customer

**As you may be aware as highlighted in the news the price of building materials have increased this year quite dramatically and we are experiencing month on month increases which are out of our control, something which is highly unprecedented and never seen before.**

**This is being driven by the demand for materials and the increase in cost for raw materials, not only in the UK but Globally.**

**We are doing everything we can to ensure we remain as fully stocked as possible whilst working with our supply chains to ensure we get the best deals in the market as possible for our customers.**

**Our goal is to support and do everything we can to help our customers have the products available for your important projects, please speak to our teams about future projects so we can see where we can help you build better.**
